## About the Client:

### eCommerce Website for leading entertainment Company

disneymovieclub.go.com is the e-commerce website for Disney DVD and Blu-rays. The website uses IBM WebSphere Commerce – a product from IBM which has been customized to meet client's requirements. The website has a membership based model and has involvement of lots of other vendors for managing inventories, analytics, marketing and web content management. I have been involved in the project since 2016 as a developer.

Website has gone under major uplifts by upgrading platform, development of different websites for desktop and mobiles and adopting a highly responsive model.

## Project Details:

### Key Responsibilities:

- Analyzing user stories, providing estimations and scope of change documents.
- Created RESTful Web Service from scratch in WCS.
- Implementing DevOps (CD/CI)
- Working in Agile flow, Scrum principles and handling Sprints.
- Migrated WCS7 to WCS8.
- Redesigned front end from scratch using angular2, now migrated to angular 5
- Integrated REST APIs to front end

## Apart from work:

- Highly appreciated for handling the DMC application in critical upgrades
- Received star performer and ACE (Accenture Celebrates Excellency) Award.

## Educational Qualification:

- **B.Tech** in Computer Science Engineering from DIT, Gr Noida with 68.5% marks.
- **10+2** from C.B.S.E with 65.6% marks
- **Matriculation** from C.B.S.E with 75.2%.

## Personal Profile:

- **Address** : 589, Sector 22A, Gurugram, Haryana.
- **Permanent Address** : Quarter no.230A, Pahari Chak Railway Colony, Sonpur.
- **Email** : [ravi712@hotmail.com](mailto:ravi712@hotmail.com)
- **Date of Birth** : 07<sup>th</sup> December, 1992.

I hereby declare that all the information given above is true to the best of my knowledge and belief.
